

PORTFOLIO REVIEW · OCTOBER 2026

Where the six companies stand and what to do next

TO	Broad Sky Partners (BSP) leadership and the Portfolio Resource Group (PRG)	FROM	Syed Rahman
DATE	October 6, 2026	BASIS	Public filings, deed records and press, September to October 2026

What this is

This memo reviews BSP's six portfolio companies using public records only. It shows where each company stands, where profit can grow fastest and what to do in the first 90 days. Figures not found in public filings are analyst estimates, marked est., to be checked against company actuals.

Terms: EBITDA is operating profit before interest, tax, depreciation and amortization. EV is enterprise value. A "turn" is one times EBITDA added to the sale price. DSO (days sales outstanding) is how long customers take to pay. Each OS (operating system) is a bundle of software and AI tools for one company. PP is Punctual Pros.

1 Purpose

Where each company stands, which levers move EBITDA fastest, and what the PRG should do in 90 days. Benchmark: Smith + Howard, ~4x revenue in 3.7 years, sold to TPG Growth.²⁸

SUMMARY

- Six companies: **est. \$540–750M revenue and \$66–101M EBITDA.**
- Thomas Scientific refinancing plan:** start the workstream now for the December 2027 maturity; grow EBITDA toward ~\$42.5M to reach ~6x leverage.^{19,20}
- Largest upside:** CET in New England wastewater; Punctual Pros through 6–7x tuck-ins.²⁵
- OS program:** est. \$6.0–12.4M for +0.5–2.5 turns per company.^{7,26}

2 Portfolio snapshot

Company · entry	Revenue (est.)	EBITDA (est.)	Add-ons	Top opportunity	Next action
CET Feb 2025	\$65–100M pro forma	\$6–11M	NuWave, Horton	62 funded CT/MA/RI plant and pump-station projects ³	Horton 100-day plan; October bid slate
Punctual Pros Apr 2024	~\$22M	~\$2.6M	Horvath + 1 unnamed	Missed calls (~\$1.37M/yr); 6–7x tuck-ins	AI voice agent; 8-week ads pilot
Frontline Dec 2024	\$100–140M	\$16–20M	None	143 mid-size law firms; billing tuck-ins ¹⁷	Close client-count gaps
Thomas Scientific Jan 2022	\$250–320M	\$25–35M	NCI, Quintana, Day, Arrowhead	Cash: each day of DSO ~\$0.8M ²⁰	Refinancing workstream
BPI Apr 2023	\$85–125M net	\$17–28M	Six, BOLDT to 365 Sherpas	Always-on retainers (SignalOS)	Pilot with 3 clients
Fair Harbor Mar 2022	\$20–35M	\$0–4M	None	Wholesale doors ~250 → ~520	Open-to-buy reset

Sources: notes 1, 8, 14, 19, 21, 23; add-ons from *BSP firm profile*. All figures est., low confidence unless stated.

3 Commonwealth Electrical Technologies (CET)

Worcester MA · licensed in 6 states				
\$65–100M REVENUE EST.	\$6–11M EBITDA EST.	260–290 STAFF	1.13x CO-INVEST MARK	86 NE OPPORTUNITIES
1. Horton nearly doubles the workforce, to ~260–290 people.^{1,2} 2. Co-invest marked at 1.13x (March 2026 ADV): NuWave plus organic growth.¹ 3. 183 plants scored; New Haven East Shore leads with an \$82M upgrade.³ 4. Demand is funded wastewater and efficiency, not New England data centers.⁴ 5. Electrical M&A fell from 140 deals to 99; buyers are selective.^{5,12}				
TOP ADD-ON TARGETS		36-MONTH PATH (ASSUMPTION)		
McDonald Electrical (fit 83), K.M. Kelly (83), Energy Electric (81). ⁶		Revenue ~\$80M → \$240M; EBITDA \$8M → \$30M through RI/NH/ME/VT add-ons. Any later move stays outside New York City.		
GRIDOS Bid triage, faster takeoff and O&M monitoring on Procore. Est. \$0.8–1.8M; +1.0–2.5 pts; +0.5–1.5 turns. ⁷				

4 Punctual Pros

Lancaster PA · One Hour / Ben Franklin / Mister Sparky

~\$22M

FY25 REVENUE EST.

~\$2.6M

EBITDA EST.

25

TERRITORIES

8.73%

LOAN COUPON

~2,300

PA MOVERS / MONTH

1. ~\$0.9M per territory, above system averages of \$0.61–0.66M.⁸
2. PGIM 10-Q: \$4.83M first lien at S+500, plus \$1.4M delayed draw.⁹
3. ~14.8% of calls missed; an AI voice agent recovers ~\$1.37M a year.¹⁰
4. ~2,300 PA new movers a month must pick a provider.¹¹
5. Sila, Legacy/HL Bowman and Ally buy in PP's counties; stay off-auction.¹²

TOP ADD-ON TARGETS

Lancaster Plumbing (fit 84), West Chester tri-brand (82), C&C Air (82).¹³

MULTIPLE ARBITRAGE

Tuck-ins price at 6.3–6.9x; a company worth \$100–250M (total enterprise value) at ~10.0x (GF Data).²⁵

SERVICEOS ServiceTitan plus voice, dispatch, pricebook and membership agents. Est. \$0.4–0.9M; +2–4 pts; +1.0–2.5 turns. Strongest evidence of the six.⁷

5 Frontline Managed Services

St. Louis · 800+ law-firm clients

7 Bully Pulpit International and Fair Harbor

BPI DC / NYC / SF / Chicago / Europe - BSP put in \$90.0M of equity; PineBridge agents the credit facility.²¹ - Est. \$85–125M net revenue, \$17–28M EBITDA; six add-ons.^{21,22} - Political billings swung from \$3.1M (2022) to \$115.3M (2024).²¹ - Plan: SignalOS retainers, named practices, 2–3 tuck-ins a year.²² SIGNALOS Est. \$1–2M; +1–3 pts; +0.5–2.0 turns.⁷	Fair Harbor NYC · beachwear, DTC + wholesale - Equity only: \$30.73M primary (Form D, Mar 2022); no term loan found.²³ - Est. \$20–35M revenue, \$0–4M EBITDA after 4.5 years.²³ 38.5% of live variants marked down in September 2026.²⁴ - Plan: fix markdowns and returns, then grow doors ~250 → ~520.²⁴ HARBOROS Est. \$0.3–0.7M; +2–5 pts; +0.2–0.5x EV/revenue.⁷
--	--

²¹ BPI public filings: Form D BSP–BPI Holdings; Companies House charges; FEC Schedule B; PPHC 10–K.

²² BPI growth plan; BSP firm profile add-ons.

²³ Fair Harbor public filings: Form D (Mar 2022); Shopify catalog; Similarweb.

²⁴ Fair Harbor growth plan: catalog mix, door plan.

8 Punctual Pros nationwide plan

Repeat the Horvath deal along I–81 and I–95. Become the main buyer inside the One Hour, Ben Franklin and Mister Sparky franchise system (1,066 outlets; Punctual Pros holds ~2.3%).²⁵

Phase (months)	Move	Revenue	EBITDA	Techs	Territories	Members
Today	Oct 2026 run-rate est.	\$24M	\$2.9M	85	25	6,500
1 (0–12)	Densify the core and 195 adjacent Tier 1 zips; 1–2 tuck-ins	\$38M	\$5.3M	135	32	11,000
2 (9–24)	Repeat Horvath across PA/NJ/MD/DE/southern NY	\$65M	\$9.8M	230	44	20,000
3 (18–36)	Mid-Atlantic hub; then consolidate inside the system	\$100M	\$16M	350	58	32,000

Today = FY2025 ~\$22M and ~\$2.6M grown ~8%. Later rows are assumptions (est.); month 36 is ~4.5x FY2025 revenue.

AI AGENTS (11) 24/7 AI dispatcher: 70% booking versus ~42% for a typical call-center rep. - AI estimator recovered \$1.2M of unsold estimates at a ~\$20M peer. - Plus dispatch, renewal, review, AP/AR, permit and recruiting agents.	TECHNICIANS AND FINANCING - Technicians, not demand, are the constraint: turnover runs 16–21% a year. - Hire from Thaddeus Stevens (97% placement) and PA apprenticeships. - Fund with the PGIM delayed-draw line, seller rollover and co-invest.²⁵
---	---

²⁵ Punctual Pros nationwide plan: 2026 FDDs; BLS; Thaddeus Stevens College; PA DLI; ServiceTitan, Rilla and XOι case studies; GF Data H1 2025 and Q2 2026.

9 The OS program

Buyers pay for recurring, scalable earnings: PKF prices project-heavy HVAC firms at 5–6x and repeatable-service firms at 10x+. No source isolates a pure technology premium, so we claim ~0.5–2.5 turns. Each OS joins proven vendor software to the portal's data.⁷

OS · company	Investment (est.)	EBITDA impact (est.)	Multiple (est.)	Time to value	Evidence
ServiceOS · Punctual Pros	\$0.4–0.9M	\$0.3–1.1M	+1.0–2.5x	6–12 mo	Strong
GridOS · CET	\$0.8–1.8M	\$0.6–2.6M	+0.5–1.5x	9–15 mo	Medium
FirmOS · Frontline	\$1.5–3.0M	\$1.5–4.2M	+0.5–1.5x	6–12 mo	Medium
LabOS · Thomas Scientific	\$2.0–4.0M	\$1.3–4.8M	+0.5–1.0x	9–18 mo	Weak for multiple
SignalOS · BPI	\$1.0–2.0M	\$0.9–3.8M	+0.5–2.0x	6–12 mo	Medium
HarborOS · Fair Harbor	\$0.3–0.7M	\$0.4–1.8M	+0.2–0.5x rev.	4–9 mo	Weak to medium
Total	\$6.0–12.4M	\$4.9–18.2M	—	4–18 mo	Assumptions

Agents. 45 AI agents from 8 patterns, each with a named human approver; none moves money alone. Est. run-rate value ~\$12.7M a year, led by Thomas (\$3.8M) and Frontline (\$3.6M). Re-base on 8-week baselines before any exit case.²⁶ On PP's \$16M month–36 EBITDA, each turn is ~\$16M of EV.

²⁶ Portfolio AI-agent plan: 45 agents, rollout waves, controls, value summary (not de-duplicated).

10 Growth marketing (Punctual Pros first)

- Sell the brands' existing promises, such as One Hour's on-time guarantee. - Google Local Services Ads (LSA) as the base: \$39–57 per lead, ~44% booked. - ZIP-targeted connected TV (CTV), judged on cost per booked job and holdout lift.	8-WEEK CENTRAL PA PILOT (~\$95.5K) <table><tr><th>Week</th><th>Test</th></tr><tr><td>1</td><td>Call tracking; LSA clean-up; holdout zips</td></tr><tr><td>2–3</td><td>Two CTV spots; mail offer A/B</td></tr><tr><td>4–6</td><td>First read; weather trigger on</td></tr><tr><td>7–8</td><td>Holdout lift; go/no-go</td></tr></table>	Week	Test	1	Call tracking; LSA clean-up; holdout zips	2–3	Two CTV spots; mail offer A/B	4–6	First read; weather trigger on	7–8	Holdout lift; go/no-go
Week	Test										
1	Call tracking; LSA clean-up; holdout zips										
2–3	Two CTV spots; mail offer A/B										
4–6	First read; weather trigger on										
7–8	Holdout lift; go/no-go										

- New -mover mail to ~2,300 PA and ~1,150 NJ deed transfers a month.
 - National Weather Service (NWS) alerts raise budgets 12–36 hours before demand spikes.²⁷
- Cost per booked job (est.): LSA ~\$117, search ~\$249, CTV ~\$416; target ~\$185–200.

²⁷ Punctual Pros ad plan: test plan, CTV pricing, SearchLight LSA benchmark.

11 Competitive landscape

- BSP is small: \$335M flagship versus \$0.9–2.1B at Trivest, Sterling, Gridiron.^{12,28}
- Residential services is the hardest field; target shops consolidators skip.
- CET has open space: Kohlberg and Huron companies sit mostly outside New England.⁶
- No sponsor-backed rival copies Frontline's legal IT plus billing model.
- Calibre Scientific made 12+ lab deals in 2024, mostly in Europe.
- Exit demand is deep: LGP, Goldman Sachs and TPG keep buying services.¹²

12 First 90 days in the PRG

1. **Days 1–30** Replace estimates with actuals: one data request to the six CFOs.
2. **Days 1–45** Open a Thomas Scientific refinancing workstream and 13-week cash flow.
3. **Days 1–60** Run the CET + Horton 100-day plan with one bid desk.
4. **Days 15–75** Launch the PP voice agent and ads pilot; read at week 8.
5. **Days 1–90** Approach top PP and CET targets off-auction; aim for one signed letter of intent.
6. **Days 1–60** Close Frontline's client-count and churn gaps; size a co-invest top-up.
7. **Days 1–30** Put AI controls and KPI baselines in place before agents ship.
8. **Days 30–90** Pilot SignalOS retainers with three BPI corporate clients.
9. **Days 30–90** Reset Fair Harbor's open-to-buy and markdown rules before the next buy.
10. **Monthly** Hold a PRG operating review with an exit-readiness scorecard per company.

13 Appendix: data and caveats

Data group	Coverage (items)	Primary sources	Confidence
Filings and estimates	CET (25), PP (29), Frontline (21), Thomas (31), BPI (21), Fair Harbor (25), rivals (51), comps (31)	SEC, BDC filings, PPP, FDDs, FEC	High for filed facts; low for derived
Growth plans	CET (46), Frontline (49), Thomas (43), BPI (53), Fair Harbor (46), PP nationwide (59)	Filings plus market evidence	Roadmaps are assumptions
Add-on screens	CET (48), PP (61), Frontline and Thomas (48)	ZoomInfo, company sites, press	Analyst-defined fit
Demand and pipeline	CET radar (86), plants (183), law firms (143), PP market (177), storms (1,575), demand (54)	State portals, ACS, NOAA, deeds	Medium to high
Programs and landscape	OS program evidence (80), agents (62), voice AI (84), ad plan (64), landscape (35), firm (6), design (26)	Banker reports, vendor cases, comps	Medium

CAVEATS

- Private-company financials are outside-in estimates (est.); no non-public information used.
- KPI roadmaps, OS and agent values are assumptions, not company guidance.
- The ~\$137M figure is BSP-FL LP (Frontline); the flagship reports \$335M.²⁸
- CET, BPI and Fair Harbor debt is inferred; paywalled sources were not accessed.
- Vendor performance claims are self-reported. This memo is not investment advice.

²⁸ BSP firm profile and Private-equity landscape: flagship fund Form D/A (Apr 2025); sale of Smith + Howard to TPG.
